

ANVESHAN JOHN PARICHHA

Software Engineer | Full Stack Development & Cloud Technologies

9321788606 | anveshanjohn004@gmail.com | Airoli, Navi Mumbai, Maharashtra 400708 | linkedin.com/in/anveshan-parichha-862b2a363

PROFESSIONAL SUMMARY

Results-driven Software Engineer with hands-on experience across the full software development life cycle (SDLC), designing and delivering scalable full-stack web and mobile applications. Proficient in **React.js, Node.js, React Native, RESTful API design, and microservices**, with working knowledge of cloud platforms (AWS, GCP). Experienced in Agile/Scrum sprint execution, version control (Git), and cross-functional collaboration with designers, QA, and product managers. Strong foundation in data structures, database design, and object-oriented programming.

CORE COMPETENCIES

- Full Stack Software Development
- Mobile Application Development
- Object-Oriented Programming (OOP)
- Microservices Architecture
- Cloud Computing (AWS & GCP)
- RESTful API Design & Integration
- Version Control (Git/GitHub)
- Caching & Performance Tuning (Redis)
- Agile / Scrum & SDLC
- Database Design & Optimization
- Data Structures & Algorithms
- CI/CD & DevOps Fundamentals

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL

Frontend Development: React.js, Next.js, Angular.js, HTML5, CSS3, React Native

Backend Development: Node.js, Express.js, Spring Boot, Spring Data JPA, Hibernate, RESTful APIs, PHP, Microservices

Database Management: PostgreSQL, MySQL, MongoDB, Oracle

Cloud & DevOps: AWS (EC2, S3, IAM), Google Cloud Platform (GCP), CI/CD

Caching & Performance: Redis, Application Tuning, Latency Reduction

Tools & Methodologies: Git/GitHub, VS Code, Agile, Scrum, SDLC, Power BI, .NET, Android Studio, SQL Server, WordPress

Operating Systems: Windows, Linux

PROFESSIONAL EXPERIENCE

Software Engineer — Darpin Dynamics Pvt. Ltd.

May 2025 – Present

Navi Mumbai, India

- Design, develop, and maintain end-to-end full-stack web and mobile applications using **React.js, Node.js, and React Native** within an Agile/Scrum sprint environment, following SDLC best practices.
- Architect and optimize relational and NoSQL databases (**PostgreSQL, MongoDB**) to support high-performance, scalable application backends.
- Deploy and manage cloud infrastructure on **Google Cloud Platform (GCP)**, ensuring high availability, reliability, and cost-efficiency.
- Design and integrate **RESTful APIs and microservices**, enabling seamless communication between frontend and backend systems across multiple live projects.
- Introduced **Redis caching** for frequently accessed data, cutting API response times and reducing load on primary databases.
- Built a **RAG (Retrieval-Augmented Generation)**-based internal assistant to surface project and documentation context on demand, speeding up developer lookups.
- Collaborate with cross-functional teams (designers, QA, product managers) to translate business requirements into **production-ready software solutions**.
- Lead code reviews, debugging, and testing efforts, championing engineering best practices that **improved code quality and reduced defect rates** across the team.

AWS Cloud Practitioner Intern — Magic Bus India Foundation

Mar 2024 – Jun 2024

India

- Gained hands-on experience with core AWS services — **EC2, S3, IAM** — assisting with cloud monitoring, cost optimization, and infrastructure troubleshooting.
- Applied AWS security best practices and billing management under senior engineers; earned the **AWS Certified Cloud Practitioner** certification on completion.

KEY PROJECTS

Houzing Partner – Admin Panel | *React.js, REST API*

- Built a **React.js and REST API** admin application to centrally manage real-estate projects, users, and finances, with role-based access control and payment tracking dashboards.
- Improved operational control and data visibility, **reducing manual effort** in user allocation and financial reconciliation workflows.

Lodha Stella – Site Management Application | *Cross-platform, Real-time Sync*

- Engineered a cross-platform site management application that fully digitized construction operations, **replacing paper workflows** with real-time digital processes.
- Delivered measurable improvements in **data accuracy, coordination, and reporting efficiency** across multiple active construction sites at scale.

Vibration Monitoring & Alert System (Lathe Machine) | *Flutter, Java, Android Studio, IoT*

- Built an IoT-integrated real-time monitoring system using **Flutter, Java, and Android Studio** to continuously track vibration patterns on industrial lathe machines.
- Implemented **anomaly detection logic** that triggers automated real-time alerts, preventing mechanical failures and reducing unplanned downtime.

Blogger Platform & Banking Website | *Next.js, MongoDB, PHP*

- Created a dynamic **Next.js + MongoDB** blogging application with content management, user engagement features, and SEO optimization via server-side rendering.
- Developed a responsive, secure **PHP banking website** featuring authenticated login, account management, real-time transactions, and server-side session management.

EDUCATION

MSc – Information Technology | D G Ruparel College, Dadar, Mumbai | 73%

BSc – Information Technology | Jnan Vikas Mehta College, Airoli, Navi Mumbai | 9.00 CGPA

XII – Higher Secondary | Mazidun High School, Airoli, Navi Mumbai | 56.92%

X – Secondary | Mazidun High School, Airoli, Navi Mumbai | 58.00%

CERTIFICATIONS

- AWS Certified Cloud Practitioner – Amazon Web Services (2024)
- Full Stack Development – Simplilearn (March 2024): HTML/CSS, JavaScript, React, Node.js, Express, MongoDB
- Android Application Development – Great Learning (December 2023): Java, Android SDK, UI/UX Best Practices
- MS-CIT – MKCL (2018): Microsoft Office (Word, Excel, PowerPoint) & Computer Fundamentals

ACHIEVEMENTS & AWARDS

- Awarded '**Student of the Year**' in 12th Grade for outstanding academic performance, demonstrated leadership, and exceptional contribution to school and community activities.
- Successfully delivered the Lodha Stella site management application as a live, **production-grade cross-platform software solution** that directly improved construction data accuracy and team efficiency.
- Completed the AWS Certified Cloud Practitioner certification within **3 months** of starting the internship, demonstrating rapid skill acquisition and a self-driven learning approach.

INTERESTS & ACTIVITIES

App & Web Development | Cloud Technologies | Competitive Coding | Fitness & Meditation | Team Sports (Cricket, Badminton, Chess, Carrom, Rubik's Cube) | Travel
